RETURN TO CIA LIBRARY

1. **Location:** On Skorokhodova Street, Leningrad

2. **Name:** Plant No. 218

3. **Layout:**
    Partially destroyed during the war. Reconstructed according to former plans.
    Total area about 650x500 feet. Main building 500x250 feet. Six stories.
    Own power station.
    Complete reconstruction scheduled for the spring of 1949.

4. **Labor Force:**
    2,000 to 3,000 Soviets working in 8-hour shifts. In some departments a considerably smaller second shift.

5. **Production:**
    Told: Radio gear for Air Force.
    Seen:

    a. Radio gear, including bakelite cabinets. (Bakelite department belonging to plant).

    b. Manufacture of dials (only for wave ranges)

    c. Household goods of metal and plastic material.
    No flow production work was seen.

6. No railroad sidings. Transports by trucks.

25X1A   **Comment:**

    No other information on Signal Equipment Plant No.218 is available.
    At the end of the war a factory called Plant No.218 was known to exist in LENINGRAD which, however, was producing aircraft
